In case you don't have it, the only contact I've had is attached. Clearly I didn't understand there was a request to assign someone!

Jamie is right, at least the last time we talked to NDEE this was focused on water and waste. I'm happy to call with you on Tuesday when I'm back or you can find Ed, he will be there Monday and I think he was looped when we last talked to NDEE.

I'm not sure what the ask is either. I've waded through some of the e-mails. Looks like they are pulling a water and sludge sample but thought they were also looking at some of the mash. If TJ is the lead, I'd suggest Erin and I call her Monday and get a sense of what they are looking for. Ex. 5 Deliberative Process (DP)

Jeff and Jamie-

I am trying to dig out of emails. I missed the initial request on this from Cecilia. She sent me several additional emails and I must admit I am still confused about what the ask is here. Maybe you can help? Cecilia is asking that we assign someone from ECAD to help. Can you point me in the right direction here?

Thanks

No, Ed said to go ahead and help them. They're not sure what they want to do so they sent us their QAPP for review and discussion. If you can assign someone that would be great. We'll will do whatever field and analytical work they need.
